Office Memorandum

Sub : Vendor Auditing of industries – reg.

Preamble :

It has been observed that large number of engineering and automobile industries are outsourcing part of their activities to other units mainly in the small scale sectors. Generally, such activities are hazardous in nature and are significant from pollution point of view. The majority of such outsourced activities are carried out in small and medium scale industries which do not possess required environment facilities thereby they tend to deviate from the prescribed norms of the Karnataka State Pollution Control Board. Hence there is a need to monitor such units constantly by the outsourced industries/organizations since the activities are outsourced by large industries, the responsibility of environmental compliance of their vendor lies with large unit. By systematically carrying out the environment audit of the facility of the client/vendor, the pollution caused by the small and medium scale units can be reduced considerably. Hence the following :
